

ASQ-3 is a set of questionnaires about children's development. It has been used for more than 20 years to make sure children are developing well. A screening provides a quick look at how children are doing in important areas, such as communication, physical ability, social skills, and problem-solving skills. ASQ-3 can help identify your child's strengths as well as any areas where your child may need support.

As a parent or caregiver, you are the best source of information about your child. That's why ASQ-3 questionnaires are designed to be filled out by you. You will only need 10–15 minutes. It's that quick and easy. Here's how ASQ-3 works:

- You will answer each question "yes," "sometimes," or "not yet," based on what your child is able to do now. Your answers help show your child's strengths and areas where he or she may need practice.
- To answer each question, you can try fun and simple activities with your child. These activities encourage your child to play, move around, and practice day-to-day skills.
- After you complete the questionnaire, a professional will share the results with you.

If your child is developing without concerns, there is nothing more you will need to do. You may try the next ASQ-3 age level as your child grows and learns new skills. There are 21 questionnaires that you can use with children from 1 month to 5½ years old. If your child has trouble with some skills, your program will help you with next steps. Finding delays or problems as early as possible supports young children's healthy development.

You are an active partner in your child's learning and development. By completing ASQ-3 questionnaires, you are making sure your child is off to the best possible start!

48 Month Questionnaire

45 months 0 days
through 50 months 30 days

On the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet.

Important Points to Remember:

Notes:

- Try each activity with your child before marking a response.
- Make completing this questionnaire a game that is fun for you and your child.
- Make sure your child is rested and fed.
- Please return this questionnaire by _____.

COMMUNICATION

YES SOMETIMES NOT YET

1. Does your child name at least three items from a common category? For example, if you say to your child, "Tell me some things that you can eat," does your child answer with something like "cookies, eggs, and cereal"? Or if you say, "Tell me the names of some animals," does your child answer with something like "cow, dog, and elephant"?

2. Does your child answer the following questions? (Mark "sometimes" if your child answers only one question.)

"What do you do when you are hungry?" (Acceptable answers include "get food," "eat," "ask for something to eat," and "have a snack.") Please write your child's response:

"What do you do when you are tired?" (Acceptable answers include "take a nap," "rest," "go to sleep," "go to bed," "lie down," and "sit down.") Please write your child's response:

3. Does your child tell you at least two things about common objects? For example, if you say to your child, "Tell me about your ball," does she say something like, "It's round. I throw it. It's big"?

4. Does your child use endings of words, such as "-s," "-ed," and "-ing"? For example, does your child say things like, "I see two cats," "I am playing," or "I kicked the ball"?
