District Report Card Detail | 2016-17 | School Performance

School Performance

Supplemental Data

School performance is provided for informational purposes only and is not used to determine district accountability scores. The performance of all students in the district, including those in alternate accountability schools, is combined to determine the district accountability score and rating.

Summary of Overall Accountability Ratings for Schools in the District

Rating Category	Number of Schools	Percent of Schools
Significantly Exceeds Expectations	0	0.0%
Exceeds Expectations	2	33.3%
Meets Expectations	3	50.0%
Meets Few Expectations	0	0.0%
Fails to Meet Expectations	0	0.0%
Alternate Accountability - Satisfactory Progress	1	16.7%
Alternate Accountability - Needs Improvement	0	0.0%
Alternate Accountability - No Score	0	0.0%

Summary of Priority Area Scores for Schools in the District

Does not include Alternate Accountability schools

Priority Area	Low Score	Average Score	High Score	Maximum Score
Overall Accountability	68.9	73.1	78.4	100
Student Achievement	65.2	71.4	77.9	100
School Growth	60.3	69.4	74.6	100
Closing Gaps	46.8	57.4	66.8	100
On-Track and Postsecondary Readiness	87.4	92.4	95.3	100

Summary of Student Engagement Indicator Deductions for Schools in the District

Does not include Alternate Accountability schools

Number of Deductions	Number of Schools	Percent of Schools
Zero	5	100.0%
One	0	0.0%
Two	0	0.0%

Student Achievement

What is the purpose of this Priority Area?

The purpose of this Priority Area is to indicate how the level of knowledge and skills for students in the district compares against state and national standards.

What is being measured?

This measure is a composite of ELA and mathematics performance-level profiles for the "all students" group in the Wisconsin Student Assessment System (WSAS) for all tested grades. The score is based on how a district's students are distributed across the four WSAS performance levels, and it takes three years worth of test data into account.

What can the report card data tell us?

Beyond a district-wide score for Student Achievement, the report card shows the distribution of students across the four WSAS performance levels for the most recent three years.

Readers can use these data to compare this district against the state average and to see if the data reveal any short-term trends. Districts can use this information to help develop overall achievement goals to guide improvement efforts.

These data are also broken out by groups of students. Readers can evaluate the impact of group performance on overall district performance. They can identify particular groups of students who are having trouble or doing well.

What goes into the calculation of the Priority Area score?

The data used to calculate a Priority Area score can be found on the following pages. Some supplemental data are also included to provide context. The accompanying Technical Guide explains how to calculate accountability scores, including worksheets that allow users to calculate these scores. See: <http://dpi.wi.gov/accountability/report-cards>.

Is the Priority Area score calculated for all students, for subgroups, or both?

The Student Achievement score is based on the "all students" group, not student subgroups.

Notes

- Details on student achievement calculations can be found at <http://dpi.wi.gov/accountability/report-cards>.
- Student Achievement is based on Wisconsin Student Assessment System (WSAS) results for full academic year (FAY) students in all tested grades in the district.
- Scores are based on student performance on WSAS mathematics and English language arts statewide assessments.
- Points displayed in the tables above are weighted so that larger numbers of students and more recent years contribute more to the score for the Priority Area.

District Report Card Detail | 2016-17 | District Growth

District Growth

What is the purpose of this Priority Area?

The purpose of this Priority Area is to give districts a measure that summarizes how rapidly their students are gaining knowledge and skills from year to year. In contrast to Student Achievement, which is based on the levels of proficiency students have attained, District Growth focuses on the pace of improvement in students' performance.

What is being measured?

This measure describes how much student knowledge of English language arts and mathematics in the district changes from year to year. It uses a value-added score that compares the change in a student's scores to those of observationally similar students.

What can the data tell us?

Measuring growth is an important complement to student achievement when assessing district performance. How well students are learning is reflected both by their level of attainment and by their rate of improvement. In some cases, a district's performance in Student Achievement could be quite different than its performance in District Growth.

The report card also provides District Growth data for groups of students. Readers can determine the impact of groups' growth performance on overall district growth performance. They can identify particular groups of students that are having trouble improving or that are improving rapidly.

What goes into the calculation of the Priority Area score?

The data used to calculate a Priority Area score can be found on the following page. Some supplemental data are also included to provide context. The accompanying Technical Guide explains how to calculate accountability scores, including worksheets that allow users to calculate these scores. See <http://dpi.wi.gov/accountability/report-cards>.

Is the Priority Area score calculated for all students, for student groups, or both?

The District Growth score is based on the "all students" group, not student subgroups.

Sauk Prairie

District Report Card Detail | 2016-17 | District Growth

District Growth

Total Score: 66.0/100

These growth scores are derived from a value-added model. A value-added model measures a student's performance on standardized assessments over a period of time. It then compares the change in the student's scores to those of observationally similar students. If the student grew more than predicted by these peers' performance, we say her district had high value added. That is, the value the district added to the student's growth was higher than predicted.

English Language Arts Growth Score: 31.1/50 Mathematics Growth Score: 34.9/50

Group	English Language Arts		Mathematics	
	Count	Value-Added Score	Count	Value-Added Score
All Students: District	937	2.8	937	3.2

District Growth Supplemental Data

Group performance is provided for informational purposes only and is not used to determine the District Growth scores used in the accountability system. Supplemental value-added scores are calculated when 10 or more students are included in a group.

Group	English Language Arts		Mathematics	
	Count	Value-Added Score	Count	Value-Added Score
All Students: State	292,662	3.0	292,617	3.0
American Indian or Alaskan Native	<20	*	<20	*
Asian	<20	*	<20	*
Black or African American	<20	*	<20	*
Hispanic/Latino	97	2.8	97	3.2
Native Hawaiian or Other Pacific Islander	<20	*	<20	*
White	791	2.8	791	3.2
Two or More Races	24	2.8	24	3.4
Students with Disabilities	109	2.6	109	3.3
Economically Disadvantaged	221	2.7	221	3.2
Limited English Proficient	53	3.3	53	3.0

Notes

- Details on district growth calculations can be found at <http://dpi.wi.gov/accountability/report-cards>.

Sauk Prairie

District Report Card Detail | 2016-17 | Closing Gaps

Closing Gaps

What is the purpose of this Priority Area?

The purpose of this Priority Area is to provide a measure that reflects the statewide goal of having all students improve, while narrowing the achievement and graduation gaps between groups of students. This measure acknowledges districts that raise the performance of traditionally lagging student groups, contributing to the closure of statewide gaps.

What is being measured?

The growth in the proficiency rate of economically disadvantaged students, English language learners, and students with disabilities is compared against the growth in the state rate for each traditionally higher scoring comparison group. A supergroup is a group of 20 or more students that is comprised of at least two of the three target groups when those groups alone have fewer than 20 students. Supergroups allow more districts with small group sizes to be included in the accountability system. American Indian or Alaskan Native students, Asian students, Black or African American students, Hispanic/Latino students, Native Hawaiian or Other Pacific Islander students and two or more race students are compared to White students statewide.

District Target Group Points-Based Proficiency Rates					State Comparison Group Points-Based Proficiency Rates					Rate of Change		Difference in Rate of Change		
Group	2012-13 Points	2013-14 Points	2014-15 Points	2015-16 Points	2016-17 Points	Group	2012-13 Points	2013-14 Points	2014-15 Points	2015-16 Points	2016-17 Points		District Target Group	State Comparison Group
Example District Target Group	0.351	0.480	0.593	0.452	0.678	Example State Comparison Group	0.793	0.811	0.825	0.843	0.846	0.201	0.050	0.151

The above is an example of the type of tables that are shown for this district on the next page. Districts are awarded points for raising test scores and/or graduation rates of target groups.

The chart to the right demonstrates how groups are compared. There is a trend line for both groups, measuring the rate of change in points-based proficiency using an equal number of years of data.

If the target group's line (circles) is steeper than the comparison group's line, then the difference in rate of change (the rightmost column in the table) is larger. A large, positive difference in rate of change numbers indicates progress in closing gaps, resulting in a higher Closing Gaps score.

What can the data tell us?

This Priority Area shows whether the district is succeeding in helping lagging groups catch up. Closing Gaps scores can help explain whether factors affecting improved teaching and learning are affecting all groups equally.

What goes into the calculation of the Priority Area score?

The data used to calculate a Priority Area score can be found on the following pages. The accompanying Technical Guide explains how to calculate accountability scores, including worksheets that allow users to calculate these scores.

See: <http://dpi.wi.gov/accountability/report-cards>.

Is the Priority Area score calculated for all students, for student groups, or both?

The Closing Gaps score is based on student subgroups, not the "all students" group.

District Report Card Detail | 2016-17 | Closing Gaps

Closing Gaps

Total Score: 64.0/100

Notes - Prior Three Pages

- Details on Closing Gaps calculations can be found at <http://dpi.wi.gov/accountability/report-cards>.
- Closing Graduation Gaps is based on graduation data from prior years because 2016-17 data are not yet available. For graduation calculations, 2015-16 data is the most current.
- Points-based proficiency rate is calculated by multiplying the number of advanced students by 1.5, proficient students by 1.0, basic students by 0.5 and minimal performance students by 0.0.
- Count of students for achievement calculations can be found in the Achievement Priority Area of the Report Card.
- If the group's average points-based proficiency rate or graduation rate is greater than or equal to 0.9, the rate of change is adjusted to be equal to the highest rate of change observed for that group at any district in the state. This will be indicated on the report card by the symbol "!". This is to ensure that districts with very high achievement or graduation are not penalized with low Closing Gaps scores for small increases in gaps.
- In 2015-16 two new race/ethnicity categories were added: "Native Hawaiian or Other Pacific Islander" and "Two or More Races". Closing Achievement Gaps results for these categories will be calculated as data become available
- Beginning on 2016-17 report cards, each subgroup included in Closing Gaps calculations is compared to its statewide comparison group using the same number of years of data. For example, if three years of data are available to determine the trend for the students with disabilities subgroup, three years of data are included in the statewide comparison group trend for students without disabilities.

About Supergroups

Supergroups are a way to look at closing gaps among groups of students that would ordinarily be too small to include. A supergroup is made up of all the students that belong to any of the groups in the supergroup:

- "All 3" Supergroup: students with disabilities, economically disadvantaged, and limited English proficient students.
- "SwD-ECD" Supergroup: students with disabilities and economically disadvantaged students.
- "SwD-LEP" Supergroup: students with disabilities and limited English proficient students.
- "ECD-LEP" Supergroup: economically disadvantaged and limited English proficient students.

A supergroup is used to evaluate Closing Gaps only when there are fewer than 20 students in each of the individual groups within the supergroup, but more than 20 students in the supergroup. For example, if a district had fewer than 20 students with disabilities and fewer than 20 economically disadvantaged students, but more than 20 students when those groups are combined, the "SwD-ECD" supergroup would be used to evaluate Closing Gaps. Students are not double-counted in a supergroup. In the example above, an economically disadvantaged student with a disability is only counted once in the supergroup.

On-Track and Postsecondary Readiness

What is the purpose of this Priority Area?

The purpose of this Priority Area is to give districts an indication of how successfully students are achieving educational milestones that predict postsecondary readiness for college and career.

What is being measured?

This Priority Area has two parts. The first part includes both graduation rate and attendance rate. The second includes third-grade English language arts achievement and eighth-grade mathematics achievement as applicable to the district. The scores for these two parts are added to produce the Priority Area score.

What can the data tell us?

Graduation rates measure a key education milestone. Attendance rate represents an important prerequisite for student learning.

Third-grade English language arts ability is linked to high school performance, graduation, and college enrollment for Wisconsin students. Eighth-grade mathematics ability predicts success in high school mathematics. These are important metrics for districts to monitor.

In the future, other indicators may be incorporated into this Priority Area as we find better ways to measure whether students are on the right trajectory for college and career readiness.

What goes into the calculation of the Priority Area score?

The data used to calculate a Priority Area score can be found on the following pages. Some supplemental data are also included to provide context. The accompanying Technical Guide explains how to calculate accountability scores, including worksheets that allow users to calculate these scores. See: <http://dpi.wi.gov/accountability/report-cards>.

Is the Priority Area score calculated for all students, for student groups, or both?

The On-Track and Postsecondary Readiness score is based on the "all students" group for Graduation, Third-Grade English Language Arts Achievement, and Eighth-Grade Mathematics Achievement, and based on the average of the "all students" group and the student subgroup with the lowest rate for Attendance.

District Report Card Detail | 2016-17 | On-Track and Postsecondary Readiness

On-Track and Postsecondary Readiness

Total Score: 91.4/100

2015-16 Attendance Score: 38.5/40

Group	Enrollment	Attended Days	Possible Days	Rate
All Students	2,679	433,203.0	447,282.0	96.9%
Lowest Group: Students with Disabilities	303	47,362.0	49,695.0	95.3%

2015-16 Graduation Score: 38.1/40

Group	Four-Year Cohort Graduation Rate			Six-Year Cohort Graduation Rate		
	Students in Cohort	Graduates	Rate	Students in Cohort	Graduates	Rate
All Students	216	201	93.1%	206	201	97.6%

On-Track and Postsecondary Readiness Supplemental Data

Group performance is provided for informational purposes only and is not used to determine the On-Track and Postsecondary Readiness scores used in the accountability system.

Group	Four-Year Cohort Graduation Rate			Six-Year Cohort Graduation Rate		
	Students in Cohort	Graduates	Rate	Students in Cohort	Graduates	Rate
American Indian or Alaskan Native	<20	*	*	<20	*	*
Asian	<20	*	*	<20	*	*
Black or African American	<20	*	*	<20	*	*
Hispanic/Latino	25	22	88.0%	23	23	100.0%
Native Hawaiian or Other Pacific Islander	<20	*	*	<20	*	*
White	186	174	93.5%	174	170	97.7%
Two or More Races	<20	*	*	<20	*	*
Students with Disabilities	23	18	78.3%	34	32	94.1%
Economically Disadvantaged	49	42	85.7%	35	34	97.1%
Limited English Proficient	<20	*	*	<20	*	*

Notes

- Details on On-Track and Postsecondary Readiness calculations can be found at <http://dpi.wi.gov/accountability/report-cards>.
- Due to data availability, Attendance and Graduation data are lagged by one year. For the 2016-17 report cards, On-Track and Postsecondary Readiness calculations use these data from the 2015-16 school year.

2016-17 8th Grade Mathematics Achievement Score: 7.2/10

Performance Level	Points Multiplier	2014-15			2015-16			2016-17		
		Students		Points	Students		Points	Students		Points
		Count	Percent		Count	Percent		Count	Percent	
Advanced	1.5	30	18.0%	45	15	7.0%	22.5	13	6.8%	19.5
Proficient	1	48	28.7%	48	92	42.8%	92	88	45.8%	88
Basic	0.5	60	35.9%	30	74	34.4%	37	67	34.9%	33.5
Below Basic	0	29	17.4%	0	34	15.8%	0	24	12.5%	0
Total Tested	-	167	100%	123	215	100%	151.5	192	100%	141

Notes

- Details on On-Track and Postsecondary Readiness calculations can be found at <http://dpi.wi.gov/accountability/report-cards>.
- 3rd Grade English Language Arts and 8th Grade Mathematics Scores are determined in the same way as for the Student Achievement Priority Area. However, if there are fewer than 20 students in the most recent year, then the most recent two years of data are combined so that the cell size requirement is met.
- Student achievement is based on Wisconsin Student Assessment System (WSAS) results for full academic year (FAY) students.
- Points displayed in the tables above are weighted so that larger numbers of students and more recent years contribute more to the score for the Priority Area.

District Report Card Detail | 2016-17 | Student Engagement Indicators

Student Engagement Indicators

Goals Met: 2/2

Both one-year and three-year rates are considered for Absenteeism and Dropout rates. If either the one-year or three-year rate meets the goal then no points are deducted. The three-year rate is based on two years of data when three years are not available.

Indicator	Goal	One-Year District Rate	Three-Year District Rate	Points Deducted
Absenteeism Rate	Less than 13%	1.8%	3.5%	0
Dropout Rate	Less than 6%	0.1%	0.2%	0

Student Engagement Indicators and Test Participation Data

Group performance for Test Participation Rates, Absenteeism Rates and Dropout Rates is provided below for informational purposes only and is not used to determine whether these goals have been met. Test Participation data reflect the one-year test participation rates of subgroups. Note that there is no longer a score deduction associated with Test Participation on the 2016-17 Report Cards.

Group	Absenteeism Rate				Dropout Rate				Test Participation Rate			
	One Year		Three Year		One Year		Three Year		(Not Scored)			
	Students	Rate	Students	Rate	Students	Rate	Students	Rate	Students	Rate	Students	Rate
All Students: District	2,655	1.8%	8,114	3.5%	1,242	0.1%	3,718	0.2%	1,436	97.5%	1,436	97.6%
American Indian or Alaskan Native	<20	*	NA	NA	<20	*	NA	NA	<20	*	<20	*
Asian	26	3.8%	69	4.3%	<20	*	NA	NA	<20	*	<20	*
Black or African American	20	0.0%	46	4.3%	<20	*	NA	NA	<20	*	<20	*
Hispanic/Latino	279	3.6%	839	4.9%	131	0.0%	377	0.3%	154	98.1%	154	98.7%
Native Hawaiian or Other Pacific Islander	<20	*	NA	NA	<20	*	NA	NA	<20	*	<20	*
Two or More Races	60	1.7%	174	6.3%	28	0.0%	74	0.0%	32	93.8%	32	93.8%
White	2,257	1.6%	6,929	3.3%	1,063	0.1%	3,205	0.2%	1,210	97.7%	1,210	97.7%
Students with Disabilities	299	5.0%	969	8.9%	133	0.0%	463	0.6%	168	94.0%	168	94.0%
Economically Disadvantaged	751	4.3%	2,231	6.3%	339	0.0%	988	0.3%	355	97.2%	355	97.5%
Limited English Proficient	155	2.6%	486	4.9%	66	0.0%	186	0.0%	94	98.9%	94	100.0%

Notes

- Details on Student Engagement Indicator calculations can be found at <http://dpi.wi.gov/accountability/report-cards>.
- All districts are expected to meet Student Engagement Indicator goals for Absenteeism and Dropouts rates. The overall accountability score is reduced by five points if the Absenteeism Rate goal or Dropout Rate goal is not met.
- Absenteeism Rate is the percent of students who are chronically absent (absent at least 16% of the time).
